DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a method or process for performing a sequence of steps which is merely a program per se. While the program contains functionally descriptive material the recording of the functionally descriptive material on some computer-readable medium which would enable the functionality to be realized fails to be recited.

Relative to applicant's remarks concerning claims 1-11 while it is agreed that a method is a process, 35 U.S.C. 101 clearly does not mean that all processes are statutory subject because of court created exceptions.

Relative to applicant's remarks concerning claims 12-22 the recitation of "A computer-readable medium having a program stored thereon" is not sufficient because it includes a transmission medium storing the program.

Conclusion

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2193

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
